  - Linear Waste & Overflow

## INSTALLATION TIPS

- Install according to Owner's Manual and local codes.
- Any whirlpool or Airbath® unit requires an access panel.
- Hot water supply should be 65-75% of tub capacity or greater.
- Always consult your local plumber for recommendations as installations will vary.
- This unit accommodates corner installations only.
- The combination of multiple systems and options may require components to stick out and/or be remotely installed in the field.

## ELECTRICAL REQUIREMENTS

Americh recommends one 20 amp ground fault circuit interrupter (GFCI) for each power supply provided with the bathtub.
